

# FLUROSURFACTANT SURFLON KS-APP-02

## Description

Surflon KS-APP-02 is an anionic water soluble fluorosurfactant that can help to achieve extremely low surface tension at very small dosages. Surflon KS-APP-02 imparts super wetting & wetting properties to the paint and coatings. It also helps to improve the anti-blocking and dirt-pick up resistance properties.

SURFACE TENSION [mN/m] vs. Water

	0.001%	0.01%	0.1%	1%
KS-APP-02	43.2	30.7	15.9	14.8

## Physical Properties

Appearance	Clear to Light Yellow Liquid
Charge	Anionic
Composition	30% Active
